SUMMARY

A motivated Engineering graduate currently gaining hands-on experience as a MERN Stack Developer through an internship, working with React, Node.js, Express, and MongoDB to build functional full-stack applications. Passionate about crafting scalable solutions, improving user experience, and continuously enhancing development skills. Seeking an entry-level IT role where I can grow, contribute to meaningful projects, and bring value to a dynamic team.

WORK EXPERIENCE

MERN Stack Developer Intern **Luminar Technolab, Kochi, India** July 2025 – Dec 2025

- Working with MongoDB, Express.js, React.js, and Node.js to build full-stack applications.
- Developing responsive UI components and integrating REST APIs.
- Using Git, GitHub, and agile workflows for collaboration and version control.

Electronics & Instrumentation Intern **Saverglass Ltd, Ras Al Khaimah, UAE** March 2023

- Industrial electronics, sensors, and instrumentation systems.
- Observed maintenance workflows and equipment monitoring.
- Exposure to safety standards and automated production environments.

PROJECTS

Gym Membership & Trainer Booking System

[Project live](#)

- MERN-based platform for membership plans, trainer booking, and authentication.
- CRUD operations, role-based access, and responsive UI implementation.
- REST API integration with version control using Git and GitHub.

Food Restaurant & Dish Review App

[project live](#)

- Interactive platform for browsing restaurants and submitting reviews.
- Firebase Authentication and Firestore for secure login storage.
- User-friendly responsive UI with sorting and filtering features.

E-Smart Intelligent Meter & Automated Reading System

Academic Project

- Smart meter prototype for automated electricity usage recording.
- Integrated sensors, microcontroller, and communication module.
- Designed for accuracy improvement and reduced manual errors.

Wireless Electric Vehicle Charging System

Mini Project

- Wireless charging using inductive power transfer.
- Worked on coil alignment and power transfer efficiency.
- Demonstrated contactless EV charging concept.

EDUCATION

2021 – 2025	B.Tech in Electronics and Communication Engineering at TKM College of Engineering, Kerala <i>Affiliated to KTU University</i>	(CGPA: 7.0/10)
2020 – 2021	Class 12 at Dayapuram Residential School, Calicut	(85%)
2018 – 2019	Class 10 at Indian Public High School, Ras Al Khaimah, UAE	(80%)

SKILLS

- **Programming:** JavaScript, Python, C
- **Web:** React.js, Node.js, Express.js, HTML, CSS
- **Databases:** MongoDB, Firebase (Basic), SQL (Basic)
- **Tools:** Git, GitHub, VS Code, Linux (Basic)
- **Electronics:** Embedded Systems, Sensors, Arduino, Digital Electronics
- **Soft Skills:** Teamwork, Problem Solving, Communication, Adaptability
- **Languages:** English (Proficient), Malayalam (Native), Tamil (Conversational)

CERTIFICATIONS

- NPTEL — Internet of Things (IoT)
- AutoCAD Workshop — TechMaghi
- Fundamentals of Python — TKM College Collaboration
- MERN Stack Development — Luminar Technolab
